See also: Logitech K250 Software, Wireless Keyboard For Windows You want to have a keyboard with an Ultra Slim design that adapts to your every job and is also natural for each of your workspaces, just enough Bluetooth 2.0 works for you throughout the day, the distance between your computer and keyboard is up to 30 feet, it is possible that you can work from a range from your PC device, here we will try to give you a logitech review ofNovo Keyboard. Logitech byNovo Edge Keyboard The Logitech ofNovo Edge has a PerfectStroke key system, and you will know this key system because it will provide a micro scissor precision mechanism on the keyboard to distribute each force to the keyboard ofNovo Edge itself, the typing force will be felt evenly on each surface of the keyboard. Then the keyboard style with a reasonably elegant Laser design cut from a piece of plexiglass arranged in an aluminum frame with dynamic enamel and the keyboard ofNovo Edge has a physical thickness of up to 11 mm, with a fantastic charging base, and even if you only want to recharge enough put the keyboard on the screen through a thin base. And lithium-ion batteries will work to recharge the battery faster. Novo's edge keyboard also has a TouchDisc swipe The new type of touchpad instead of a mouse, as well as the TouchDisc on the keyboard, will join the scroll controls, make selections, and the cursor also works efficiently for your computer. And even a hyperfast parchment just enough with the touch of the ring finger. The backlit stealth control is already at hand, plus the hidden, hot button will light up touched with your finger, as well as the volume slider that is touch sensitive to your finger that will give you full audio control at your fingertips and all this you can control because it is supported by Bluetooth Bluetooth technology up to 30 feet even if it continues to run smoothly and unimpeded. Other things you need to know from this ofNovo Edge are keyframes with standard full-size keys up to 18 X 18 mm, travel at 3.2 mm keys, activation power of 60 g up to 10 feet key meters on the keyboard are supported on each key, as well as the Touchpad on a standard keyboard with 38 mm of round, horizontal and vertical scrolling, as well as acceleration settings up to 10 times the speed of scrolling of the Touchpad keyboard, and also the TouchDisk keyboard can also be disabled with the FN button only enough left click, so it has 17 access controls on the console and also a 57mm touch-sensitive volume slider all working only one touch results from instant backlight. The Keyboard ofNovo Edge has a 950 mA lithium-ion battery that can be recharged varies, while for a fast charging time it takes up to 5 minutes with the use of a keyboard one day, while for the full charging time on the keyboard takes up to 2 hours for use up to 2 months, all charging time conditions can vary and are irregular.
